SUMMARY

I'm a Full-Stack Developer with 1 year of experience. I coded more than 50K lines, and I also assist in teaching a full-stack javascript course at CodeYourFuture. I'm educated up to degree level and I've finished more than 35 online courses. I'm currently studying computer science at UoPeople university. And I used to be a pharmacist.

EXPERIENCE

Code Your Future, London— Full Stack Developer April 2020 - PRESENT

- Teaching students a full-stack 8-month long course.
- Building the internal infrastructure which contains more than 6 apps that support and organise more than 1000 students and volunteers in more than 10 cities around the world.
- Added features to the API in node.js and MongoDB.
- Transformed parts of Dashboard into React Hooks.
- Created projects or challenges so the students can work on them as homework. Reviewed students code and gave them advice following the best practices.

Freelancer, London— Freelance Web Developer April 2019 - April 2020

- Developed, Designed and Deployed websites and online shops for clients.
- Maintained responsive products with security standards and basic SEO.
